

MATICS

BIG IMPACT MADE SIMPLE

Matics' digital platform empowers production teams to work smarter by connecting people, processes, systems, and machines, and providing real-time actionable insights to reduce downtime and drive productivity.

The Difference the Matics Digital Platform Can Make:

Increase productivity, OEE, and output

Optimize material consumption

Reduce unplanned downtime

Enhance communication and engagement

Capture and share expert knowledge

"Partnering with Matics has given us improved visibility of our shop-floor and enabled us to fully digitalize our operations across 5 continents, giving us a single viewpoint from which to manage production floors"

Nir Rehav, Head of Global IT at SodaStream, a PepsiCo Company

3 Things Matics does for Manufacturers

1

Enables digitalization in a non-disruptive way - Matics seamlessly integrates with all existing ERPs, manufacturing systems, sensors, and machines.

2

Real-time data analysis within production context - transform data into insight with custom triggers and alerts about production events.

3

Empower teams when it matters most - Acknowledge employee success, enhance engagement and digitalize knowledge preservation and collaboration.

Your Industry 4.0 Partner

Matics enables manufacturing facilities to leverage connected data and advanced analytics to optimize production in real-time with a user-friendly and intuitive platform for all frontline workers. As your Industry 4.0 partner, we empower smarter decision-making across your organization.

Industries Served:

Automotive

Food & Beverage

Plastic

Rubber

Packaging

By delivering continuous production improvements, Matics supports manufacturers in all sectors to pursue their Industry 4.0 goals:

- Digitalization and precision of manual tasks
- Intelligent process automation
- Sustainable and optimized production
- Human-machine collaboration

Big Impact You Can Measure

Matics delivers tangible improvements across critical production metrics. Our manufacturing analytics platform empowers companies to increase efficiency, reduce waste, and boost quality - with the data to prove it.

Integrate our digital platform and gain full visibility and data collection in just 1 day

Reduce rejects by up to 10%

Improve OEE by up to 10% within 4 weeks

Increase efficiency by up to 10% after 1 year
